FROM NATURE.
BY HAND.

POETRY OF NATURE

Handcraft is a testament to the harmonious fusion of nature's grandeur and human creativity. This unique carpet tile collection - Moss, Leaf, Willow, and Grind - brings the elements of the natural world into our crafted spaces.

Each design in the Handcraft collection embodies a piece of nature's mosaic, celebrating the interplay between organic forms and intricate craftsmanship. We invite you to feel the resonance of nature's rhythms and the meticulous touch of skilled hands in your surroundings, offering a tangible link to both the wild and the artisanal.

Through Handcraft, we celebrate the poetry of nature and human artistry, leaving a lasting impression of their unity in every space.

HUMAN ARTISTRY

Embracing the ancient wisdom of the forest and the positive effect of being in nature, the Handcraft collection marries natural elements with holistic well-being.

While all facets of nature possess the ability to enhance our health and happiness, the allure of the forest holds a special place. Drawing inspiration from the interplay of colours, textures and patterns found within its depths, the Handcraft collection pays homage to the diverse elements that make a forest so enchanting. From the tranquil moss to the dancing leaves, from the resilient bark to the winding paths, each carpet tile design serves as a tribute to one of these elements, mirroring its energy and rhythm.

By incorporating the Handcraft collection into our indoor environments, we extend an invitation to the healing presence of the forest, allowing it to nurture our minds, bodies and souls. The collection inspires us to redefine spaces, transcending traditional design norms and triggering creativity. It's more than just soft flooring; it's a journey through the endless dance of the forest. The Handcraft collection invites you to explore this synergy and immerse yourself in this world of natural enchantment.

NATURAL ENCHANTMENT

MIRRORING FORESTAL ENERGY

The collection wants to mirror different layers of a forest. All of the four designs – Moss, Leaf, Willow, and Grind – are inspired by the poetry of each of these layers.

Step into the quiet corners of a thriving forest, where a velvety carpet of moss whispers the enduring story of nature. Our Moss collection is a tribute to these unnoticed, yet essential, components of our ecosystem. This collection captures the understated elegance and complex textures of moss in a myriad of detailed designs. It urges you to slow down, to appreciate the subtleties of nature, and to find beauty in the overlooked. Moss offers a touch of nature's elegance, reminding us that the smallest of details can impart the greatest impact.

The vibrant dance of autumn leaves marks the end of a cycle and the beginning of another. Our Leaf collection encapsulates this transient beauty, capturing the intricate designs left by time on each fallen leaf. This collection is a canvas of autumn, painted with an array of warm hues, invoking the serenity of seasonal change. Leaf invites you to welcome the allure of new beginnings and immerse yourself in the symphony of fall colours. This collection is a testimony to the ephemeral beauty of nature, reminding us to cherish fleeting moments.

The Willow collection is a celebration of nature's resilience, echoing the undulating lines and natural rhythm of willow bark. This collection portrays the unpredictable paths that life often takes, captured in a mesmerising tapestry of patterns and textures. Willow offers a sanctuary, infusing spaces with nature's serenity amidst the bustle of daily life. The organic motifs within this collection create a tranquil retreat, reminding us of the soothing whispers of a willow tree swaying in the wind.

Explore the rugged terrain with Grind, the carpet tile collection inspired by the unpaved roads that wind through the landscape. The journey is just as important as the destination, and Grind celebrates every moment along the way. With its unique minituft design and a range of earthy hues, Grind invites you to take the path less travelled and discover the beauty of the unknown. Whether you're a wanderer, a seeker, or an adventurer, Grind is the perfect companion for the journey ahead.

LOVE TOUCH

Crafted with 100% regenerated ECONYL® yarn, every piece in the Handcraft collection marries sustainability with design. Each carpet tile from Moss, Leaf, Willow, and Grind is equipped with our recyclable ecoBack backing, underscoring our commitment to environmentally conscious choices.

In recognition of our efforts to meet rigorous standards of environmental and social responsibility, the Handcraft collection has been granted Cradle to Cradle Certified® Gold or Silver status, depending on the colour.
